## DARMANN DONATION – CLINTON HOSPITAL CAPITAL CAMPAIGN

**November 13, 2014**– Darman is focused on helping others and prides itself by giving back to the community. Through our Darman Charitable Committee, committee members designate monetary donations to local community services that support individuals that would otherwise go without. Each year Darman donates 1% of profit to local communities.

*“This year we were able to donate \$10,000 to the Clinton Hospital Capital Campaign to help build a new state of the art emergency department. As an ESOP company we are committed to supporting local communities. We believe that giving back to the community inspires our employees and other area businesses to generously help those in need.” Donna Rockel, Darman Charitable Committee Member*

Darman Abrasive Products, Inc. designs, manufactures and markets fine grit, bonded abrasive products for superfinishing, precision grinding, honing and dressing applications. We provide superior engineered, customized products and responsive customer support.
